

Time	Monday	Tuesday	Wednesday	Thursday	Time
09:10	09:00 - 9:10 Welcome session			9:00 - 9:30 Simon Murman (Friedrich-Schiller University)	09:10
	9:10 - 10:00 Jonathan Breuer (Hebrew University) <i>Periodic Jacobi matrices on trees</i>	9:10 - 10:00 Daniel Sell (Torun) <i>About endomorphisms of B-free, B-admissible subshifts</i>	9:10 - 10:00 Gilad Sofer (Israel Institute of Technology) <i>Spectral flow on metric graphs and the generalized nodal deficiency</i>	<i>L^p positivity preserving</i>	
	Discussion and Coffee Break	Discussion and Coffee Break	Discussion and Coffee Break	09:50 - 10:40 Ian Zimmermann (Friedrich-Schiller University) <i>A nonlinear characterization of stochastic completeness</i>	
	10:40 - 11:30 Eyal Seelig (Hebrew University) <i>Eigenvalues of graph Jacobi matrices and spectra of periodic covers</i>	10:40 - 11:30 Lior Tenenbaum (University of Potsdam) <i>Periodic approximation of substitution subshifts</i>	10:40 - 11:30 Johannes Hapich (University of Leipzig) <i>Diophantine approximation and linear repetitivity in cut and project sets</i>	Discussion and Coffee Break	
	Lunch	Lunch + Photo session	Lunch	11:20 - 11:50 Florian Fischer (University of Potsdam) <i>Optimal p-Hardy weights on locally finite graphs</i>	
13:00	13:10 - 14:00 Netanel Levi (Hebrew University) <i>Subordinacy theory on star-like graphs</i>	13:00 - 13:30 Robert Müller (University of Potsdam) <i>On Characterization of Gramov hyperbolic spaces and their applications</i>	13:00 - 13:30 Marius Nietschmann (University of Potsdam) <i>Optimal Hardy inequality for fractional Laplacians on the integers</i>	Lunch	13:00
	Discussion and Coffee Break	Discussion and Coffee Break	Discussion and Coffee Break	13:20 - 14:10 Oleksiy Köpp (Friedrich-Schiller University) <i>Martin boundary and hyperbolic graphs</i>	
	14:00 - 14:50 Simon Puchert (Friedrich-Schiller University) <i>Resolvable Dirichlet spaces</i>	14:00 - 14:50 Philipp Bartmann (University of Potsdam) <i>Laplacians and spectral geometry on simplicial complexes</i>	14:00 - 14:50 Philipp Hake (University of Leipzig) <i>Optimal Hardy inequalities for the discrete Heisenberg group</i>	Discussion and Coffee Break	
15:30	14:50 - 15:20 Simon Puchert (Friedrich-Schiller University) <i>Resolvable Dirichlet spaces</i>	Discussion and Coffee Break	Discussion and Coffee Break	14:50 - 15:40 Mattl Richter (University of Potsdam) <i>An Introduction to Type Theory</i>	15:30
	Discussion and Coffee Break	15:30 - 16:00 Anna Rockstroh (Friedrich-Schiller University) <i>Dynamical spectrum and diffraction theory for subshifts</i>	15:30 - 16:00 Elias Zimmermann (University of Leipzig) <i>Strictly irreducible Markov shifts and ergodic theorems for Markov groups</i>	Discussion and Coffee Break	
16:40	16:00 - 16:50 Philippe Charron (Université de Genève) <i>Zeroes of linear combinations on quantum graphs</i>	Discussion and Coffee Break	Discussion and Coffee Break	16:10 - 17:00 Florentin Münch (MPI, Leipzig) <i>Reflective Graphs, Ollivier curvature, effective diameter, and rigidity</i>	16:40
	Discussion and Coffee Break	16:40 - 17:10 Marc Vieth (University of Leipzig) <i>A comparison of two theorems for quasicrystals</i>	16:40 - 17:10 Franziska Sieron (Friedrich-Schiller University) <i>The boundary of a window of a cut and project scheme and asymptotic pairs for Toeplitz words</i>	Discussion and Coffee Break	
	17:30 - 21:00 Get Together - Barbecue			17:10 - 18:00 Open problem session
