Institut für Mathematik

Lehrstühle für Wahrscheinlichkeitstheorie und Statistik

Forschungsseminar : Stochastic Processes

Sommesemester 2020, montags 12:15-13:15, ONLINE

08.06.20 **Anne Flöge** (Potsdam):
The (neural network) Hopfield Model applied to decision making in behavioural science (Bachelor thesis)

08.06.20 **Saeda Marello** (Bonn):
Metastability in the Curie-Weiss and randomly dilute Curie-Weiss models

15.06.20 Seminar replaced by Institutskolloquium on June 17th

22.06.20 Dr. **Pierre Gaillard** (INRIA Paris):
Sequential prediction of arbitrary time-series

16.07.20 **Andrea Hübner** (Potsdam):
Modelization of Covid 19 by multitype branching processes (Master thesis)

Interessenten sind herzlich eingeladen !
Sara Mazzonetto.
